

WHY CHOOSE GeckoGraphix ZA

GeckoGraphix ZA was registered in 2015 with the primary focus to become the leading, marketing service provider, specialising in **graphic design** and **production solutions** aimed at SME's and Corporate Industries.

With **extensive experience** directly involved in the **design** and **print industry** for more than **20 years**, we have a clear understanding of all printing processes. This allows GeckoGraphix ZA to advise and create graphic design material, ready for any required print process from digital to litho, screen printing, packaging, heat-press, sublimation print or embroidery.

Our knowledge also gives us an edge on **incorporating classic finishing processes** in our designs such as foiling, embossing, di-cut, spot UV and raised printing.

GeckoGraphix ZA provide a range of specialised and professional graphic design services from conceptualisation to execution in various design software packages such as InDesign, Photoshop, Illustrator, Freehand, HTML and CSS.

Our graphic design and print solution services include

(but are not limited to):

- Logo, stationery and CI design
- Brochures design and layout
- Product catalogue design and creation
- Product data sheets
- Small to large format banner solutions
- Poster and calendar design

Electronic media design such as:

- Email signatures and mailer campaigns
- Social media posts for FB and LI
- Website design, creation and maintenance
- Newsletters and **so much more...**
